## PROFESSIONAL EXPERIENCE

### Full-Stack Developer

2026 – Present

DataCrazy CRM

- Building features and integrations for a CRM platform using microservices architecture with async communication via Apache Kafka and distributed caching with Redis
- Developing RESTful APIs documented with Swagger/OpenAPI in NestJS, with relational modeling and optimized queries in PostgreSQL (TypeORM/Prisma)
- Crafting responsive interfaces with Next.js, React and TailwindCSS with reusable components and REST API integration
- Full containerization of services with Docker/Docker Compose on Ubuntu Linux, secrets management and troubleshooting
- Kanban with daily standups, feature branches, code review via Pull Request and structured QA pipeline through release

NestJS   Next.js   TypeScript   PostgreSQL   Redis   Kafka   Docker  
Swagger

### IT Analyst / Support

2025 – 2026

Detella Restaurantes

- Automated internal processes and operational routines with Python and UiPath, eliminating repetitive manual tasks
- Full-stack development of internal tools to support business operations
- IT infrastructure management and maintenance: networking, backups and equipment configuration

Python   UiPath   RPA   Infrastructure   Networking

## SKILLS

### BACKEND

NestJS   Node.js  
TypeScript   Python  
Prisma

### FRONTEND

Next.js   React   Tailwind  
JavaScript

### DATA & MESSAGING

PostgreSQL   Redis  
Kafka   SQL

### DEVOPS & CLOUD

Docker   GCP   Linux  
Git

### PROCESS & QUALITY

Kanban   Code Review   CI/CD  
Git Flow   Swagger

## EDUCATION

### Systems Analysis & Development

Uniftec  
Oct 2024 – Mar 2027 • In progress

## FEATURED PROJECTS

### AssetWise

PRIVATE

Enterprise IT asset management system with dashboard and Google AI integration.

Next.js

TypeScript

Firebase

Google AI

### DataCrazy Voice Assistant

Voice messaging app with real-time audio transcription via OpenAI Whisper and ChatGPT responses.

React

OpenAI API

Web Audio

### Flux Finance

Multi-user personal finance platform with interactive dashboard, insights and analytics charts.

Next.js

Firebase

TypeScript

Recharts

### Financial Analysis

Comparative financial data analysis with automated Excel/PDF reports and advanced charts.

Python

Pandas

Matplotlib

## CERTIFICATIONS

### Google Cloud Data Analytics

Google Cloud • Nov 2025

### Cloud Computing Foundations

Google Cloud • Nov 2025

### Prepare Data for ML APIs

Google Cloud • Nov 2025

### Secure Google Cloud Network

Google Cloud • Nov 2025

### Load Balancing – Compute Engine

Google Cloud • Nov 2025

### App Dev Environment on GCP

Google Cloud • Nov 2025

### [Network Security] FortiOS r06

Fortinet Training Institute • Oct 2025

## LANGUAGES

Portuguese

Native

English

Intermediate

## HIGHLIGHTS

Real-world experience with event-driven microservices in production

15+ Google Cloud certifications (Infra, Data, ML, Security)

End-to-end Docker containerized environments daily

True full-stack: from database schema to pixel on screen
